

NITHIN POLAVARAPU

✉ nithinpolavarapu@gmail.com 📞 7013433231 📍 Vijayawada, India

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with a 7.76 CGPA . Experienced in building predictive models, automating decision workflows, and deploying ML-powered systems. Currently developing an AI-Driven Business Analytics Suite to automate enterprise decision-making across multi-channel data systems.

Experience

Machine Learning Intern CodTech IT Solutions	January 2026 - April 2026
- Designed scalable ML pipelines for processing structured and semi-structured datasets. - Implemented predictive models that enhanced operational insights and minimized manual analysis. - Developed AI-driven business analytics suite that automated decision-making across enterprise data channels.	
Machine Learning Intern Micro Information Technology Services	May 2025 - June 2025
- Applied supervised learning algorithms to enhance prediction accuracy for targeted outcomes. - Engineered features to optimize model performance and achieve better results. - Conducted exploratory data analysis on real-world datasets to uncover patterns and insights.	

Education

B.Tech - Computer Science (Artificial Intelligence) Parul University, Vadodara, Gujarat, India	June 2022 – 2026
GPA: 7.76	
Intermediate Narayana Junior College, AP	January 2020 - March 2022
GPA: 77.1%	
Secondary School Narayana EM High School, AP	June 2019 - March 2020
GPA: 100%	

Projects

AI-Driven Business Analytics Suite
Building automated analytics system to streamline enterprise-level decision processes and integrate ML models with business intelligence workflows.
Transforming Disease Analysis Using Machine Learning
- Developed multi-disease prediction system with Streamlit UI and MongoDB integration. - Built complete ML pipeline including preprocessing, training, and deployment.
Neural Language Model Using PyTorch
- Built next-word prediction model trained with iterative cycles. - Implemented tokenization, embeddings, and inference pipeline.

Certifications

Machine Learning, Andrew Ng (Coursera)	2025
Google Prompting Essentials, Coursera	2025

Skills

Machine learning | Python | C | MongoDB | Neural Networks | Supervised Learning | Model Evaluation | Transfer Learning | TensorFlow | PyTorch | MySQL | Git | Prompt engineering
